

Flooring

Automotive Carpet is at the heart of what we do. No one has a larger offering or manufactures more flooring products than ACC. Made with true automotive grade carpet, we offer seven original materials plus our premium Essex carpet. In addition, we manufacture Vinyl flooring for when carpet is not the best solution. With over 200 colors to choose from plus many more options, trust in ACC for the best product in your next vehicle project.

MOLDED CARPET

(Typically in vehicles from the early 1960s to current year)

- > Molded to fit the contours of your specific floor pan (trimming may be required)
- > Padding – Included where padding was original.
- > Heel Pad – Accurately applied using the same method as the OEM.
- > Meets or exceeds OEM specifications.
- > Optional items including kick panels, door panels, wheel wells, tail gate pieces, etc.
- > Optional Mass Backing – Adds heat and sound control plus adds value to the overall look of the product.
- > Easy Installation – Visit our website “How-To” page for installation help.

CUT & SEWN CARPET

(Typically in vehicles before 1960)

- > Cut using CAD controlled CNC equipment for precise fit.
- > Vinyl or surge-bound edges per original specifications.
- > Heel Pad – Accurately applied using the same method as the OEM.
- > Padding – Included where padding was original.
- > Original style materials to match original material.
